

PRICE WARS : ZOMATO VS SWIGGY

A COMPARATIVE ANALYSIS OF BANGALORE RESTAURANTS

📍 Total Restaurants

42K

★ Average Rating

3.94

💰 Avg Cost for Two (₹)

499.63

👁️ Avg Visibility Index

17.83

- Insights:**
- Swiggy’s lower cost and higher rating → higher price elasticity: customers are more responsive to pricing.
 - Zomato’s higher visibility index implies greater digital footprint and better restaurant acquisition — suggesting stronger B2B engagement.
 - Strategic takeaway:** Swiggy wins customer perception; Zomato wins partner network scale. Each must optimize the other’s strength.

Swiggy Cost Distribution

Zomato Cost Distribution

Insights:

- **Swiggy maintains satisfaction at lower cost levels**, which indicates **operational efficiency and value perception** — a strong case for expansion in price-sensitive segments.
- **Zomato's premium bias** (higher cost + slightly lower average rating) hints at a **luxury or experiential dining orientation** — aligns with brand positioning but may limit mass-market appeal.
- **Strategic takeaway:** Swiggy can use its stable satisfaction curve for market penetration; Zomato should leverage premium users to introduce loyalty or dining subscription models.

Swiggy

Zomato

- Insights:**
- **Swiggy dominates regional cuisine categories (North Indian, South Indian, Chinese), implying a stronger local market understanding and customer trust in comfort food delivery.**
 - **Zomato’s higher pricing and concentration in multi-cuisine/fine-dining show a focus on urban affluent segments.**
 - **Geographic spread:** Zomato’s coverage in Central Bengaluru correlates with premium catchment zones, Swiggy’s denser suburban presence indicates stronger operational scalability.
 - **Strategic takeaway:** Swiggy should strengthen restaurant partnerships in premium clusters. Zomato should localize offers in tier-2 micro-markets to improve mass appeal.
